## Personal Statement

Cheerful and friendly person. As a passionate full stack developer, I have experience in producing software solutions from conception to deployment including creating database, graphic designing and working with several programming languages. I am interested in opportunities to make meaningful impacts and enhance my skills.

---

## Technical Skills

**Languages:** CSS, HTML, React, JavaScript, Node, PostgreSQL, Express

**Platforms:** GitHub, Heroku, Visual Studio Code, NPM RESTful API, Netlify

---

## Work Experience

### ▪ Full Stack Web Developer Trainee

**CodeYourFuture (CYF), Birmingham, UK (Sep 2020 – July 2021)**

- Built several applications including a quiz application that enable engagement of teachers and students; high score tables for displaying and sorting scores of countries in ascending or descending order, and a baby name application for choosing and storing some common names of babies around the world.
- Enhanced my soft skills such as problem solving, communication skills, time management and critical thinking. I worked on personal project and practiced Agile methodologies for team work.

### ▪ Carer and Home Manager

**Birmingham, UK (Oct 2018 – Sep 2020)**

- Cared and managed a happy family of five
- Managed schedules and purchases, and created daily routines
- Enrolled and successfully completed an adult education course on mathematics
- Volunteered to teach basic Arabic language and Islamic studies to stay-at-home mums

### ▪ Human Resource Manager

**Athex Consulting Ltd, Lagos, Nigeria (Aug 2017 – Sep 2018)**

- Established the HR department and developed people-oriented vision and strategies to support the company
- Managed staff recruitment and provided welfare support to employees
- Coordinated staff trainings and development

### ▪ Company Secretary

**Alege Enterprise, Lagos, Nigeria (2005)**

- Receive and send correspondence on behalf of the firm
- Register and communicate with company stakeholders
- Maintain proper financial record.
